About Naturopathic Health Care & NHAND

ABOUT NATUROPATHIC HEALTH CARE...

Naturopathic Medicine is a unique and distinct system of health care that emphasizes the use of prevention and natural therapeutics.

Founded upon a holistic philosophy, naturopathic medicine combines safe and effective traditional therapies with the most current advances in modern medicine. Naturopathic medicine is appropriate for the management of a broad range of health conditions affecting all people of all ages.

ABOUT NATUROPATHIC DOCTORS ...

Naturopathic doctors are trained to serve as primary care general practitioners who are experts in the prevention, diagnosis, management, and treatment of both acute and chronic health conditions.

They are trained at accredited, four-year, post graduate, residential naturopathic medical programs. The training consists of comprehensive study of the conventional medical sciences, including anatomy, physiology, pathology, microbiology, immunology, clinical and physical diagnosis, laboratory diagnosis, cardiology, gastroenterology, gynecology, etc, as well as detailed study of a wide variety of natural therapies.

Naturopathic doctors use a variety of natural and non invasive therapies, including clinical nutrition, homeopathy, botanical medicine, hydrotherapy, physical medicine, and counseling. New Hampshire's naturopathic law provides NDs a pharmaceutical prescribing formulary. Many naturopathic physicians have additional training and certification in acupuncture and natural childbirth.

ABOUT THE NHAND...

The New Hampshire Association of Naturopathic Doctors (NHAND) is an organization comprised of New Hampshire state licensed Naturopathic Doctors, or ND's.

NHAND was founded in 1988 with the intention of advancing the philosophy and art of Naturopathic medicines. In 1989, with just two members and a licensing law drafted by the local law school, the proposed Naturopathic Doctors license was sent to the New Hampshire state government.

After many revisions, trials, and tribulations, the law was finally passed in 1995, and instituted in 1996. Since that time, the NHAND has expanded to more than 40 members and the governing board has licensed 84 Naturopathic Doctors in the state of New Hampshire.
